

## **SEE THE VISION!!!**

Alethia Ramsay, 47 is a ministers wife, joined 14 years ago and decided it wasn't for her at that time. Signed her agreement Jan. 20th of this year and by the 31st had 8 active recruits in (11 days). Became a DIQ on Feb. 1st and finished on Feb. 28th, 38 days after signing her agreement. She had 3 girls who recruited 24 so there was her directorship done right there, earned her car.

She talked about getting the vision. She is a visual person and said once she saw those St. John's suits at Career Conference she decided she was getting one. She is obviously a woman of faith and determination. She is somewhat soft spoken but very focused. She doesn't look left or right when she works. She decided that once she got 8 people on her team in 8 days, that she could probably be a director. Just goes to show that Team work definitely makes the dream work! But Wow! What a story! We all know that this is possible but when we hear of someone actually doing it it just breaks our belief barriers even more.

**WHEN YOU SEE IT AND BELIEVE IT YOU CAN ACHIEVE IT!!!**
